ILS
Italian Language School

I  **ITALY**

WHY US

10 reasons why you should to study Italian at ILS:

1. ILS is a Full Member of WYSE and ALTO, two organisations representing the global community of youth travel and student travel
2. To study Italian at the beach and enjoy yourself
3. To live in a small town where you can speak Italian wherever you go and you will not feel like a stranger
4. To study Italian in a small group
5. To enjoy the art, the culture, the nature, the sports, the tranquillity and the exciting nightlife of Otranto.
6. To always have help at hand with any problem you may have
7. To live in a part of Italy that is less expensive
8. To have always something to do
9. To know that you will be well cared for
10. For the experienced teachers and staff of our school.

SCHOOL - LOCATION

ILS is an Italian Language School established in 2003 and based in Otranto, Italy. It is located in a newly renovated building, in a lovely residential area of Otranto with a lot of wide green space where the students can relax within 50 meters of the sea, 5 minutes from the city centre and easy access to the railway station by foot. This is the best location in Italy for a study vacation!

ILS is open all year round for students of every age, level and nationality. It's objective is to offer high quality, stimulating Italian language lessons in a warm and friendly environment. Classes have a maximum of 8 students using teaching methods that focus on developing conversational skills, without neglecting the essential study of grammar. ILS is different from traditional schools in that lessons are tailored to each student which means that lessons can also be given individually rather than always in a group. The ILS's team of motivated teachers are all native Italians, professionally qualified and have many years of experience teaching Italian language to foreign learners.

Students can use a library, (where they can find every kind of book, essay, novel, dictionaries, Italian newspapers, and the most famous films from the Italian cinema) and a computer to surf the Internet for free.

COURSES

The courses are taught at all levels by native Italian speakers, university graduates who are specially qualified to teach Italian language and culture.

There are 3 different levels: Beginner, Intermediate and Advanced, and 4 varying intensities: LOW, NORMAL, INTENSIVE and FULL IMMERSION of 10, 15, 20 and 25 hours of lessons weekly.

No special pre-requisites are necessary to attend our Italian Language courses and at the end of the course every student receives a certificate which states the knowledge of Italian attained.

The lessons take place from Monday to Friday, normally in the morning.

ACTIVITIES

Our school has a wide recreation program: we organize disco and theatre nights, quiz games, sport competitions, movies, dinners in the garden, tambourine course, tours on horses or by bike, canoe or boat.

You can surf, play tennis and football, and also karate and karting.

There is also the possibility of diving with the help of professional guides.

We also organize architectural and artistic trips all around Otranto with special regard to Maglie, Lecce and Salentinian Greece. There is also wine tasting and Gastronomic tours in Salento.

WHERE

Otranto is one of the most beautiful picturesque walled towns in Italy. It is famous for its white sand beaches and clear sparkling water. An excellent climate and an exciting night life make Otranto one of the most preferred holiday destinations in Italy.

Apulia is a land of passage, a land between two seas located on the Mediterranean, a cross between marine and land routes that reflect memorable, mythical and historical migration.

There's no other place on earth like Apulia. You will find art, archaeology, history, folklore and breathtaking scenery, and, of course, great food.

ACCOMMODATION

Accommodation is in the building in which the school is located in double or single rooms, with heating and television. Some rooms have a balcony with sea views and air-conditioning. Students can use a fully equipped kitchen which allows for self catering.

The sheets and towels are supplied and are changed, and cleaning of the rooms is included in the price.
